Trusteeship at the Child Growth Foundation

The Child Growth Foundation is seeking dedicated and passionate individuals to join our Board of Trustees.

As a trustee you will play a key role in guiding the strategic direction of the charity, working with fellow trustees to ensure compliance with legal and regulatory requirements and to maintain financial stability and drive growth.

Making a difference wherever growth is a concern

Joining the Board of Trustees at the Child Growth Foundation means being part of a team dedicated to making a positive and lasting difference wherever growth is a concern.

Our charity's work is focused on the support, understanding and management of rare growth conditions to improve the lives of children, young people, adults and families affected. We:

- Support children, young people, adults and families affected by rare growth conditions
- Raise awareness and understanding of growth conditions, to improve their detection and support their earlier diagnosis
- Support healthcare professionals in the optimal diagnosis and management of these conditions
- Enable research into greater understanding and management of these conditions

As a trustee, you will have the opportunity to shape the direction of our charity, drive advancements for the children, young people, adults and families we support, and ensure that our strategy is delivered collaboratively with integrity, compassion and respect.

This role is voluntary and we will cover reasonable expenses, in line with the charity's Expenses Policy.
